KickBoxing, MMA, General fitness/sports, Cybersecurity

Professional Summary

Développeur Web Full Stack motivé, avec une expérience concrète dans la conception d'une plateforme SaaS de comptabilité multilingue développée de A à Z en PHP, MySQL et Docker. Compétent dans la mise en place de systèmes d'authentification sécurisés, l'intégration de paiements en ligne, et le développement d'applications multilingues répondant à des besoins métiers réels. Passionné par le code propre, la résolution de problèmes, et l'apprentissage continu à travers toutes les couches du développement.

Accomplishments

- **Built and deployed a full-stack multilingual SaaS accounting platform (PHP/MySQL) for a one-month internship at NajmiNet Innovations, including PayPal payment integration and Google OAuth authentication.**
- **Developed SALAMA, an IoT health-monitoring bracelet for elderly users, combining ESP32 hardware, React Native mobile app, and a Node.js/Express backend — selected for the CNIORI'26 national competition.**
- **Designed and deployed a personal portfolio site (Next.js) showcasing full-stack and IoT projects.**

Professional Experience

Full Stack Web Developer Intern, NajmiNet Innovations

- Built a multilingual SaaS accounting platform for Moroccan SMEs from scratch, using PHP 8.2, MySQL, Docker, and Bootstrap 5
- Designed and implemented a complete authentication system, including Google OAuth and password recovery
- Integrated PayPal payment processing via raw cURL, with a 14-day free trial and subscription workflow
- Developed 12 business tools (Devis, Produits, Fournisseurs, etc.) with dedicated manager classes
- Implemented multilingual support (Arabic, French, English, Spanish) with full RTL layout
- Deployed the platform on production hosting and resolved session-handling issues during migration
- Produced full internship documentation (rapport de stage) and delivered a 21-slide soutenance presentation

Education

BTS Développement Web Full Stack (DWFS), Centre de BTS de Chichaoua

SEPT 2025 — PRESENT

- Coursework covering HTML/CSS, Bootstrap, JavaScript DOM manipulation, SQL (DDL/DML, GROUP BY), Linux/MS-DOS.
- Completed a one-month internship at NajmiNet Innovations building a multilingual SaaS accounting platform
